

SURYA VELRAJ DEVELOPER

+91 99946 15264 | suryavelraj0309@gmail.com | Tirupur, Tamilnadu, India | [Github](#) | [Linkedin](#)

AREAS OF PROFICIENCY

- Full Stack Development
 - REST API Development, Platform Integration, Workflow Mangement
 - ServiceNow ITOM, Scripting
 - Technical Documentation , Debugging & Troubleshooting
-

PROFESSIONAL EXPERIENCE

RIGHT ANGLE SOLUTIONS, TIRUPUR, TAMILNADU

Aug 2025- Present

Developer

- Building full-stack web applications using Svelte/SvelteKit, PostgreSQL, and Supabase.
- **Migrating AppSheet-based applications** to custom web solutions, re-architecting workflows, data models, and UI to improve performance, flexibility, and long-term maintainabilityManaging relational data, queries, and backend workflows in PostgreSQL.
- Implemented webhook-based CRM data ingestion into BigQuery and REST API–driven bi-directional integrations with the web platform, enabling non-CRM users to securely access and act on CRM data without direct platform access, while maintaining consistency across integrated systems.
- **Customized** third-party CRM platforms and integrated them with internal services and web applications, designing and maintaining end-to-end workflows to support business processes and automation.
- Managing environment-specific configurations and secrets, ensuring applications are deployment-ready for staging and production environments.

DOTSITO TECHNOLOGIES, Kangeyam, Tamilnadu (INTERNSHIP)

Sep 2024- May 2025

Software Developer Trainee

- Contributed to an HR portal built with the MERN stack, focusing on responsive React UI and REST API integration.
 - Implement customizable **Dynamic Kanban Board** and **Automation Builder**.
 - Participated in Agile development activities including sprints, reviews, and testing.
 - Supported **Jira Service Management** customization (Kanban boards, workflows, automations).
 - Gained hands-on experience with ServiceNow ITOM Discovery, including ACC-M, MID Servers, Script Includes, and CI management.
-

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, C, PostgreSQL, SQL
 - **Library/ Frameworks :** React.js, Svelte, Sveltekit, Express js
 - **Database:** MongoDB, Supabase
 - **Platform:**
 - ServiceNow (ITOM Discovery, ACC-M, MID Server, Script Includes, Client Scripts, ITSM)
 - Jira Service Management (Request types, custom workflows, automation, Kanban board configuration)
 - VMware (Virtual machine provisioning, system monitoring)
 - GoHighLevel (Workflow, Api integration)
 - **Tools & Integrations:** Git, Postman, JIRA, ServiceNow, GHL, gohighlevel
 - **Concepts:** RESTful APIs, Webhooks, Agile Methodology, ITIL Framework
-

EDUCATION

- Erode Sengunthar Engineering College - **B.Tech IT** - Aug 2021 – MAY 2025 | CGPA: 8.33
 - SVKN Higher Secondary School, Tamil Nadu - HSC - Jun 2020 – Apr 2021 | Percentage: 89%
 - SVKN Higher Secondary School, Tamil Nadu - SSLC - Jun 2018 – Apr 2019 | Percentage: 80%
-

PROJECTS

DYNAMIC FORM BUILDER & CRUD SYSTEM

Tech Stack: React, Node.js, Express, MongoDB, Ant Design | [GitHub](#)

Description:

- A fully dynamic form builder and CRUD platform allowing users to create custom data collections, auto-generate forms based on JSON schemas, and manage data seamlessly—all without modifying code manually.
- Form Builder: Build custom forms with support for text, number, email, date, and select inputs, with real-time validation and dynamic schema persistence.
- Dynamic Forms: Render forms dynamically using stored schemas; support for real-time field validation and responsive design.
- CRUD Operations: Perform full Create, Read, Update, Delete operations on dynamic collections with schema-based validation.
- Data Management: Tables and forms are auto-generated from the backend schema and stored in MongoDB collections.
